## How does Altai Balance work?

**The Altai Balance formula helps to maintain normal levels of blood sugar by targeting the root cause. Breakthrough research reveals the true root cause of high blood sugar.**

It has nothing to do with your lifestyle or your diet hence, it is not your fault if you are one of those people suffering from high blood sugar.

A scientific study suggests that the true cause of the erratic blood sugar levels is particulate matter or PM which is an airborne toxin.

These tiny droplets are not visible to the naked eye. These particles are present in the air that come from construction sites, cars, toxic fumes from factories, and other sources.

There is no escaping the particles because they are present every you go. When you inhale the air with PM, you are inhaling toxins like lead, nickel, cadmium, arsenic, and much more.

Once these heavy metals enter the body, they can enter the bloodstream from the lungs and affect the cells in your body. Recent research in the field of diabetes confirms that PM is associated with diabetes and is one of the leading causes of individuals acquiring this condition.

The WHO reports that there is no place left without the presence of PM and there is simply no escaping it. However, there is nothing to worry about because the Altai Balance has been designed to tackle this situation.

**It is a composition of 19 potent ingredients that help to detoxify the body from the PM.** The ingredients are nutrients and plants that have proven effects in fighting

toxins in the body. Thus, the Altai Balance works by detoxifying the body from the particulate matter that is the root cause of diabetes and high blood sugar.

The Altai Balance formula works best when it is used consistently for at least 30 days minimum or longer to ensure that you get the optimum results.
