## How does Arctic Blast work?

Arctic Blast formula is a natural pain relief formula that gets rid of pain related to arthritis and other reasons that cause you pain.

The main ingredient of this super pain-relief formula is known as DMSO. This ingredient gained popularity when it was introduced once before.

It was called a "health wonder" and helped relieve pain naturally. However, it was put out of the market for some obvious reasons.

The creators of the Arctic Blast have included this rapid-pain relief ingredient in their formula.

**This ingredient has a unique molecular structure that helps the solution penetrate through the skin layers and enter the tissues.**

It then reaches the painful joints and muscles and cools them down. Thus, it helps in getting rid of the pain faster.

This powerful ingredient also blocks certain kinds of nerve conduction that cause pain, it helps in reducing inflammation or swelling, and it increases blood supply to the area which needs healing.

**DMSO also helps in delivering nutrients to the parts of the body where you feel pain and thus helps heal the pain faster.**

Thus, this formula contains a mix of potent ingredients that provide instant pain relief by penetrating and reaching the deepest levels of muscles that help by reducing inflammation and swelling.

It also increases the blood flow and nutrient supply to affected areas. Thus, the Arctic Blast formula helps deal with pain almost immediately and heals from within.

## What are the benefits of the Arctic Blast?

- It reduces the wear and tear of the muscles.
- It helps by providing nutrients to the joints and muscles.
- It reduces inflammation and swelling of the muscles.
- It provides a cooling effect to the joints and muscles from within.
- It increases blood circulation.
- It provides relief from pain caused due to arthritis and other conditions that cause pain and affect your daily life.

## What ingredients is the Arctic Blast made of?

The mix of potent ingredients that makes the Arctic Blast solution so powerful has been listed below:

- **Dimethyl Sulfoxide (DMSO):** This ingredient is derived from a substance found in the wood. DMSO has anti-inflammatory properties that help in relieving pain. This ingredient is important because it helps in the faster absorption of ingredients and reduces inflammation and swelling in the muscles. It helps by increasing blood circulation, increasing blood flow, and helping to deliver the nutrients to affected areas faster. Thus, this ingredient helps speed up the pain relief process.
- **Menthol:** This ingredient is effective in treating mild to moderate levels of muscle strain. It is used in medications because it can heal the pain of muscles/joints such as arthritis, backache, and sprains.
- **Camphor:** This ingredient is commonly used in pain relief medications as it can effectively heal muscle aches and pain by stimulating circulation and interacting with receptors of the sensory nerves.

- **Aloe Vera Gel:** This ingredient helps by providing relief to the joints. Aloe Vera Gel has properties that improve mobility of the joints by reducing inflammation and swelling in the joints.
- **Arnica Montana Flower Extract:** This ingredient helps by reducing pain, swelling, and inflammation in the muscles. It is most commonly used for healing pain caused by osteoarthritis.
- **Calendula Officinalis Extract:** This ingredient is highly effective and has anti-bacterial, anti-inflammatory, and anti-fungal properties. When applied to the skin it reduces pain and swelling.
- **Emu Oil:** It is an effective painkiller and helps reduce inflammation. It is used to treat minor wounds and protects the muscles from further damage.
- **St. John's Wort:** This is an important ingredient as it helps by healing nerve pain. It has also been proven to be effective in treating pain caused due to conditions like sciatica, rheumatoid arthritis, and menstruation.

## Customer Reviews:

"I was going through a tremendous pain on my right leg knee to the extent that I cannot walk without an aid but I read about ArcticBlast so I ordered some & when it arrived I used it immediately. I was kicking with my right leg immediately the pain was gone however the pain returned few days later I then continue to use it. This is a good stuff & I already recommended it to some of my Church members."

— *Mark Stengler, Stamford, CT*

"Pain in the joints, backache all over my body. ArcticBlast does help to eliminate pains, it's marvelous, couldn't find a word in a dictionary to describe, my quality of life had improved tremendously "

— *Stephanie Briggs, Missoula, MT*
