✓ What is Herpesyl™? Herpesyl is a dietary supplement that consists of all-natural ingredients. It helps the consumer to overcome the issues in the immune system. Moreover, the ingredients in Herpesyl helps to counteract the effects of herpes. It helps reduce the symptoms of the disease and gets rid of the problem overall.

✓ How Does Herpesyl Work? There is a two-way approach that Herpesyl takes to improve your condition and reduce the virus, although individual results may vary. For one, it attacks the virus and removes it from your bloodstream. This way, you can say goodbye to the virus and lead a healthy and lifetime.

✓ Herpesyl Ingredients Here are some of the main ingredients used in the formulation:

Green Tea Leaf Extract:

Green tea is popular for bioactive compounds that promote brain functions and metabolism rate. It also supports the burning of fat which leads to a quick loss in weight. It has antioxidants that protect against health problems like cancer, heart diseases, bad breath, and type-2 diabetes.

### Shitake Mushroom:

It is one of the most widely studied dietary mushrooms. In Herpesyl, it acts by preventing the herpes virus from infecting more cells in the brain and body. It can also reverse the damages caused by the virus. Supplementation with shiitake mushroom can help improve cognitive function by strengthening brain cells.

### Burdock Root:

Burdock root is a diuretic in nature and its presence in Herpesyl helps in flushing the virus out of the user's system. It is extensively used as a cooking vegetable, and recent studies have confirmed its prebiotic properties.

### Turmeric:

Curcumin is a well-known substance. It may minimize inflammation and pain, which are essential for the herpes simplex virus. It has been associated with a decreased incidence of metastatic cancer. Its antioxidants may help protect the body against cardiovascular disease and Alzheimer's.
