

PROSTAN PLUS - PROSTAN PLUS REVIEW – A NATURAL SUPPLEMENT THAT WILL TAKE CARE OF PROSTATE HEALTH AND PERFORMANCE

There are a number of ailments that can afflict men, and middle-aged and slightly older men are particularly prone to them. One of the ailments they begin to complain about is prostate problems, mostly with hypertrophy of this important gland. That's why it should be taken care of throughout life with proper prevention. An important part of it should become a dietary supplement [Prostan Plus](#) , capsules with a 100% natural composition.

prostan plus

WHAT IS THE PROSTATE GLAND?

prostate

We will look at the effectiveness and the individual ingredients of the capsules in a moment. First, it's worth finding out what the prostate gland is and what important functions it performs in the male body. The prostate, also called the prostate gland or prostate gland, is a small organ, measuring only 3.5 to 4 cm in length and only about 2.5 cm in height and width.

The prostate gland, which will be taken care of with the help of Prostan Plus capsules, is located in a specific place. It is located in the lower part of the pelvis, directly under the bladder, supporting itself with its rear part against the rectal area. Very important for the urinary system is the fact that the urethra passes through the center of the prostate, which can sometimes cause health complications.

WHAT FUNCTIONS DOES THE PROSTATE HAVE IN THE MALE BODY AND WHAT DISEASES IS IT PRONE TO?

The importance of the prostate should not be underestimated by any man, as it performs many important functions, of course, when it functions without any disorders. Among the most important functions, experts mention:

- production of the fluid that goes into semen, or sperm, which allows sperm to move and are supplied with nutrients that increase their motility and viability, among other things;
- participation in the process of ejaculation, i.e. ejaculation of semen, which is enabled by the contraction of smooth muscles located just around the prostate gland.

Proper functioning of the prostate is also of considerable importance for maintaining urinary health. This includes problems with urination and kidney function, which Prostan Plus's active ingredients can also deal with.

Particularly troublesome conditions are:

- inflammation of the prostate gland, acute, with markedly severe symptoms, and chronic, when they persist for at least three months, caused by, among other things, hormonal disorders and autoimmune diseases, and less frequently by bacterial infections;
- prostate hypertrophy, most common when the organ grows beyond its normal size, which also affects the urinary system, causing pressure on the urethra and bladder, incontinence, difficulty passing urine, burning and pain in the perineum;
- prostate cancer, the most serious and often fatal condition, which is definitely worth sparing.

PROSTAN PLUS – WORKS WITH THE POWER OF UP TO 11 ACTIVE INGREDIENTS

The effectiveness of this dietary supplement for men with prostate and urinary tract problems is based on as many as 11 ingredients. They are natural and do

not cause any side effects, but it is worth checking in advance whether we have an individual allergy to any of these substances. Each Prostan Plus capsule contains:

USPLUS®

A unique extract from saw palmetto, or sabal palm. Nearly 45 percent of this plant's composition consists of valuable fatty acids, and in addition to these, it also provides the weakened prostate with vitamin A, vitamin E, coenzyme Q10, phytosterols and flavonoids. The function of USPlus® is to:

- blocking the conversion of testosterone into the harmful variety dihydrotestosterone (DHT), which can cause prostate gland growth;
- reducing urinary frequency;
- strengthening and improving the function of the entire urinary system.

BIOPERINE®

That is, an extract extracted from the outer shell of black peppercorns full of piperine, an alkaloid with broad health-promoting effects. Among other things, it is a powerful antioxidant that removes carcinogenic free radicals, has anti-inflammatory and antibacterial effects, supports liver function, strengthens the immune system and the absorption of other active substances from this dietary supplement.

PUMPKIN SEED EXTRACT

Containing as much as 20 percent beta sitosterols, supported by B vitamins, thiamine (B1), riboflavin (B2), niacin (B3), pyridoxine (B6), folic acid (B9), vitamins C, E and K, as well as zinc, phosphorus, magnesium, potassium, sodium, calcium and iron. These give pumpkin seeds and Prostan Plus their properties:

- supporting against prostate proliferation;
- inhibiting the conversion of testosterone into DHT;
- improving urination and urinary flow.

NETTLE LEAF EXTRACT

In which the most important thing is the presence in the composition of 4 percent polyphenols, as well as numerous vitamins and mineral salts even necessary for strengthening weakened health. Its action can safely be called comprehensive, and in these capsules it boils down to:

- supporting kidney function, thanks to the fact that it is a diuretic;
- reducing edema caused by the retention of excess water in the body;
- supporting the relief of symptoms of urinary tract infection and prostate hypertrophy.

POMEGRANATE SEED EXTRACT PROPER

The therapeutic properties of this Prostan Plus ingredient also stem from its exceptional wealth of nutritional compounds, primarily vitamin A, B vitamins, vitamins C and E, dietary fiber, and salts of phosphorus, iodine, silicon, magnesium, potassium and calcium. Thanks to them, pomegranate is characterized by strong effects:

- anti-inflammatory, reducing inflammation of the urinary tract;
- antioxidant, supporting the removal of reactive oxygen species, or free radicals;
- homeostatic, restoring the body's internal balance;
- preventing possible prostate health problems.

SMALL-FLOWERED WILLOWBERRY EXTRACT

This ingredient also can't be faulted; it is widely used in herbal medicine, primarily for almost all ailments related to the prostate gland. This is favored by such of its active compounds as quercetin, linolenic acid, stearic acid, kemferol or sitosterols, giving willowwort properties:

- improving the flow of urine;

- reducing the frequency of urination;
- antioxidant and anti-inflammatory;
- blocking enzymes responsible for prostate hypertrophy.

AFRICAN PLUM BARK EXTRACT

A compound with an exceptionally broad action supporting weakened male health on many levels, rich in tannins, fatty and phenolic acids and phytosterols. Such a composition automatically translates into beneficial effects:

- accelerating the regeneration of the prostate epithelium;
- reducing inflammation of the urinary tract;
- helping to counteract excessive growth of the prostate gland;
- facilitating the maintenance of good health of the entire genitourinary system.

TOMATO FRUIT EXTRACT

Tomato fruit extract is the last plant-derived ingredient found in the Prostan Plus dietary supplement. Tasty and well-liked tomatoes are characterized by the content of numerous substances, thanks to which a weakened state of health will be perceptibly improved. Vitamins and minerals, supplied in the recommended doses, will positively influence, among other things:

- reducing the risk of developing prostate cancer;
- getting rid of dangerous free radicals;
- anti-inflammatory and anti-proliferative effects;
- cleansing the body of toxins through diuretic action.

ADDITIONAL DOSES OF VITAMINS AND MINERALS

The effectiveness of these capsules to strengthen the weakened male prostate and urinary tract is greatly increased by the additional fortified doses of vitamins and minerals in them, such as:

- vitaminE, an exceptionally powerful antioxidant that protects the body's cells from damage caused by oxidative stress, relieving the most troublesome symptoms of prostatic hypertrophy, strengthening the work of the heart, circulatory and immune systems;
- Zinc, one of the most important elements for maintaining full health, conditioning our natural immunity that also protects the prostate against diseases and urinary tract, regulating the body's hormonal balance, including the production of testosterone, the most important male hormone, also responsible for fertility;
- selenium, here in the form of a unique, patented formula SeleniumSeLECT[®], effectively reducing inflammation of the prostate, reducing the risk of developing its cancer, participating in the process of sperm production.

PROSTAN PLUS – REVIEWS OF MEN SATISFIED WITH ITS COMPREHENSIVE ACTION
