ProDentim Ingredients and Their Benefits

Below given are some of the prime ingredients of ProDentim:

- Lactobacillus paracasei: Supports the health of your gums
- B.lactis BL-04®: Promotes healthy oral microbiome
- Lactobacillus Reuteri: Helps with oral inflammation
- Inulin: Inulin can aid in the production of good bacteria in your mouth
- Malic acid: Malic acid helps in whitening your teeth
- Tricalcium phosphate: Supports healthy teeth and removes yellow stains from them
- Peppermint: Maintains a fresh oral breath and whitens your teeth

Now let's briefly discuss each of these ingredients and how they work to improve your oral health:

Lactobacillus paracasei

Lactobacillus paracasei is a strain of probiotic bacteria that has a wide range of health benefits associated with it. The ingredient can aid in increasing the level of good bacteria in your mouth. Lactobacillus paracasei improves the health of your gums and aids in keeping the sinuses free and open.

B.lactis BL-04®

B.lactis BL-04® is an ingredient that promotes a healthy balance of mouth bacteria and improves oral system health. Studies show that this ingredient can aid in boosting your immunity and improving gut health. It also supports healthy respiratory tract function.

Lactobacillus reuteri

Lactobacillus reuteri is a good bacteria that aids in restoring your oral microbiome. The ingredient present in the [ProDentim supplement](#) is known for its anti-inflammatory properties that help to reduce inflammation in the mouth. It also supports a healthy mouth environment.

Inulin

Inulin is a prebiotic that aids in the growth of good bacteria in your mouth and this aids in restoring your oral microbiome. The ingredient can also help in reducing oral inflammation and decreasing the PH of the tongue.

Malic acid

Malic acid is an active substance found in many fruits and wines that has numerous health properties associated with it. The ingredient has bleaching properties which might help in whitening your teeth and removing any yellow stains from them. It also helps to reduce dryness in the mouth.

Tricalcium phosphate

Tricalcium phosphate is an ingredient that has a wide range of medicinal benefits associated with it. Studies have found that this ingredient can aid in reducing dental hypersensitivity and strengthening your teeth. It also promotes the formation of fluorapatite in your teeth.

Peppermint

Peppermint is a cross between watermint and spearmint that has been used in many Asian and European traditional medicines to treat various health issues. The ingredient has anti-inflammatory properties that aid in reducing oral inflammation. Peppermint also helps in keeping your breath fresh.

How Does ProDentim Work For Oral Health?

ProDentim works on the root cause of oral health issues in the majority of people and this is a disrupted microbiome in the mouth.

For your mouth and teeth to stay healthy and function properly, good bacteria are important but consistent use of chemical-filled oral products kills off these bacteria in the mouth leading to oral health issues.

ProDentim dental health formula contains 3.5 billion strains of probiotics that aid in restoring a healthy oral microbiome which enhances your mouth and teeth health. These probiotics also increase the level of good bacteria in a person's oral system which aids in keeping your mouth healthy and prevents any oral health troubles.

Along with this, the oral health support supplement also improves your teeth' health and prevents any damage to it. The formula also has a few other ingredients that aid in whitening your teeth and maintaining fresh oral breath.

ProDentim Benefits Offered

ProDentim has numerous health benefits associated with it. Some of them are the following:

- ProDentim can help restore the oral microbiome
- The formula improves the health of your mouth
- It aids in protecting teeth and gum from any disease
- ProDentim keeps your fresh breath and eliminates bad odor from mouth
- The formula removes yellow stains from teeth and whitens them
- ProDentim can also aid in improving your gut health

ProDentim Dosage Tips For Effective Oral Care

ProDentim supplement comes in the form of soft tablets and the manufacturer recommends that you take the tablets directly. The ideal ProDentim dosage is one tablet per day. The manufacturer of ProDentim advises you to follow the ideal dosage of the supplement.

Taking more than one tablet per day might not be healthy for your body and being inconsistent in your intake of the supplement will affect the effectiveness of using the supplement.

The manufacturer of ProDentim recommends that you take the formula every morning to acquire the maximum results. The ProDentim customer reviews share that ProDentim can give you effective results within three to six months of consistent use of the supplement. This isn't fixed for anyone.

Some might get the result that they expected in less than three months of use and some might get it after using the formula for 5-6 months. The manufacturer of ProDentim says that with consistent use, you will be able to restore your oral health.

SUGGESTED USE: Take one soft tablet one or up to two times a day, or as recommended by your healthcare provider, ideally after brushing teeth or using mouthwash. Allow it to completely dissolve in mouth.

CAUTION: As with any dietary supplement, you should consult your healthcare provider before use, especially if pregnant, nursing, have a medical condition, taking medications, or have known adverse reactions or allergies.

KEEP OUT OF THE REACH OF CHILDREN. DO NOT USE IF SAFETY SEAL IS DAMAGED OR MISSING. STORE IN A COOL, DRY PLACE.

Where Can You Find ProDentim For Purchase?

At present, the only place where ProDentim is available is on its official website. The creator of the oral health support supplement hasn't authorized the selling of the supplement through any third-party websites or sellers. This means ProDentim is not sold through any e-commerce stores or local shops.

That being said, it has been reported that many replicas of this oral health supplement are sold using the name ProDentim. The manufacturer says that these replicas won't be as safe and effective as the original ProDentim. So, we recommend that you [order ProDentim from its official website](#) only.

The process of ordering ProDentim on its official website is quite simple. On the website, choose a package that you want by clicking on the 'buy now' button. You will be then redirected to an order summary page. On this page, fill in your address details and contact information.

Once this is done, you can complete the payment process to place your order. You will then receive an email confirming your order and the manufacturer will ship your package of the ProDentim oral support formula within 48 hours.

60-day Money-back Guarantee From ProDentim

ProDentim oral health supplement is backed by a 60-day money-back guarantee. This means if you are unhappy with the work that the formula has worked for you, then you can get a full refund from the manufacturer of the supplement using the money-back policy.

Bear in mind that the money-back guarantee offered by the manufacturer is only for the ProDentim packages purchased from the supplement's official website and is valid for 2 months from the date of ordering it on the website.

You can request a refund from the manufacturer by mailing them at contact@prodentim-product.com and then the customer support team will assist you with the return and refund process.
