This review will explore how ProNail Complex spray works, who can use it, and where to buy it from. Let's dive in to know these details and then decide on it.

ProNail Complex Reviews: A Serum That Kills Fungus?

Before jumping towards the product, it is necessary to understand the fungal nail infections first so that you can decide if this product is suitable for you.

Toenail infections are stubborn, ugly, and challenging to deal with. They may start as simple discoloration and no pain at all. But when you ignore them, and they sit on the nails for weeks or months, they turn into something really destructive and could completely break off your nail. Worse, they are highly contagious, and before you can do anything, they are on all your nails, and you might have accidentally transmitted them to your partner or friends.

ProNail Complex is a topical solution for the fungal infections that make your life miserable. This serum penetrates deeply and works against every fungal spore that comes in its way. It is different from medicines because it does not only heal the symptoms but also works on the problem directly. Millions of people are victims of stubborn toenail infections, but only a few find help at early stages that could prevent the spread of these infections.

Many of you might know fungal nail infections as onychomycosis, which is a medical term for the infection when it has reached a spreadable level. If you are already diagnosed with it, medicines would be a better choice for you. But those suspected of catching a fungal toenail infection in its early stages can get help from these non-prescription remedies such as ProNail Complex and avoid visiting a doctor for it.

Before your nails become deformed, discolored and cracked, it is high time you explore the options that could potentially save you from this mortification. Continue reading to know what ProNail Complex is and what makes it so effective.

Introducing ProNail Complex

ProNail Complex is a topical solution for the fungal infections affecting your nails. It includes well-researched and scientifically proven ingredients that kill the pathogen and repair the damage altogether. What distinguishes it from other anti-fungal products is that ProNail Complex comes in a spray form, which makes its usage easier. All you have to do is clean the affected area, dry it properly, and spray the serum directly. The microparticles in the serum go deep down to the skin. Within a few weeks, the cells start auto-repairing, with a continuous supply of nutrients through the spray. Plus, you can use it on hand nails and toes, affected and healthy both. For healthy nails, it will just act as an extra protective layer so that the fungal infections are not spread there.

The ingredients are safe for your skin and do not irritate or damage it. The entire stock is made in the US, in FDA-approved facilities, and double-checked through independent testing services. There are no side effects linked with this product.

How Does It Work?

Every dose of Pro Nail Complex provides anti-fungal, anti-inflammatory, and antioxidant effects, with the help of its proprietary blend. It revitalizes the nails, makes them strong, and prevents breakage. Within a short time, you will see the discoloration going away, the chipped nails will heal, and the natural shine and color will return.

Remember that ProNail Complex spray is not a replacement for any medicine. If you are advised to use a medicine, do not replace this product with it. Also, basic hygiene and foot care are necessary no matter which anti-fungal product you choose. Talk to the customer support if you have questions regarding the usage.

ProNail Complex Ingredients

The selection for the ProNail Complex Serum ingredients is made after checking the research evidence carefully. Every ingredient that goes inside is efficient, safe, and easy on the skin. The manufacturing is carried out under strict supervision and highest quality standards, and all these things leave no suspicion to mistrust this product.

Here is a list of ProNail Complex ingredients.

Mineral Oil: This oil is a great hydrator for the skin and nails. It initiates the damage repair and creates the protective barrier of the skin again, which locks the moisturizer and keeps it from dryness. It also reduces the chances of cracks allowing fungus to enter the skin.

Sweet Almond Oil: This oil contains essential vitamins, minerals, and antioxidants. It nourishes, repairs, and heals the nails affected by fungus.

Organic Flaxseed Oil: It provides omega-3 fatty acids supply to the cells. The inflammation is relieved, and the nails go back to healthy growth.

Tea Tree Oil: This essential oil has a strong antimicrobial effect, which keeps the skin and nails healthy and fungus-free.

Aloe Vera: Adding aloe vera in ProNail complex ingredients gives it a soothing effect. It is also a natural moisturizer that heals irritated and damaged skin.

Canola Oil: This ingredient is rich in vitamin E, which returns elasticity and stretches to the skin. It is also an antioxidant that heals the damage caused by free radicals, causing cellular damage.

Walnut Oil: This ProNail Complex ingredient offers antioxidant support, strengthens the nail bed, and restores the nail's texture damaged by fungus.

Other Ingredients

Camphor Oil: this ingredient has both antifungal and antimicrobial effects to offer. It relieves redness, itching, and inflammation caused by the fungus.

Clove Bud Oil: it also has an antimicrobial effect, which makes fungal toenail infections management easier.

Jojoba Oil: This oil moisturizes the skin and nails, healing the dryness and brittleness by repairing them.

Chia Oil: this oil has a rich amount of omega-3 fatty acids, which repair and build up the nails. It also rehydrates the skin and enhances nail growth.

Lemongrass Oil: It gives an antimicrobial effect to ProNail Complex spray. Inside this product, it works on bacterial infections that sometimes coincide with fungal infections.

Lavender Oil: it has a soothing effect with strong antifungal support. It also relaxes the brain and eases the stress that the fungal infection patients experience.

Menthol: it gives a cooling effect to the spray and relieves any discomfort triggered by the fungus.

Undecylenic Acid: This ingredient offers anti-fungal support and kills the infection before it spreads to other nails.

These ingredients work great as a combination and promote healthy nails and skin. It is an all-inclusive solution to remove the toenail fungus, repair the nail bed, and grow healthy nails again. Read the customer reviews on ProNail Complex to know how this product has helped others. Some are posted on the website so new users can read and decide on buying.

What Is The Right Way To Use ProNail Complex Spray?

It's very easy to use ProNail Complex compared to pills and serums that work the same way. It is advised to use this spray on your clean and dry feet, preferably after a shower. You can spray it on all nails; it dries quickly and leaves no grease or residue on the skin. Once it is dry, wear your socks and shoes and start your day. Use cotton socks so that the skin has space to breathe, and avoid using synthetic and mix-fabric socks that are super harsh on the skin.

It starts working right away, and while you work and do your regular things, the nails and skin heal. You can use it twice a day for the best results, once in the morning and the second before your bedtime so that the formula stays on your feet for hours. Do not forget to dry the serum completely before moving or wearing your socks or shoes.

The ingredients are gentle and safe. There are no side effects that they could cause. You can use this spray for as long as your nails need.

Best About ProNail Complex

There are so many good things about ProNail complex spray, some of which are as follows.

Home-based treatment: It is a product that could be used in the comfort of your house. You do not need to visit a hospital or clinic for it.

Non-prescription formula: it is available without a prescription. The reason is that ProNail Complex has no abuse potential, and there are no side effects expected from it. Hence, you do not need it prescribed to you.

Natural herbal treatment: ProNail Complex is made with premium ingredients obtained from plant sources. It does not have chemicals and toxins inside, which makes it safe for everyday use.

Nourishes from inside: Although this product is only used topically, its ingredients work from the inside. They strengthen, nourish, and rejuvenate the cells and promote healthy nails and skin.

Easy to apply: since it is not a chemical formulation, its application is easy, too. You can apply it on your feet without worrying about what would happen if sprayed on your healthy nails and skin. It has no side effects, grease, or texture on the foot.

While there are all good things about ProNail Complex, there are a few drawbacks, too, that you should know. These side effects do not pose health risks; they are just precautions that should be known by every user before trying an antifungal product.

For example, the results of ProNail Complex can vary, and this product can act differently for everyone. Depending upon the type and severity of the infection it can take weeks or months for recovery. It is also possible not to see any result from it, if the infection has reached a dangerous level already. You should consult a doctor if you have developed a bacterial infection, pain, or other symptoms of the toenail fungal infection.

ProNail Complex Pricing: Where To Buy?

ProNail Complex is available online, and you can [order it through the official website using this link](#).

You may also see it on Amazon and other sellers, but buying from the official website has benefits these resellers do not have. For example, you can enjoy a discounted price, buy in bulk, and get incentives like free delivery and bonuses.

As a part of the new year promotion, here are the prices, after the discount.

- Get one bottle (30-day supply) of ProNail Complex for \$69 instead of \$99 (real price).
- Get three bottles (90-day supply) of ProNail Complex for \$177 instead of \$297 (SAVE \$120)
- Get six bottles (180-day supply) of ProNail Complex for \$294 instead of \$594. (SAVE \$300)

One bottle is enough for the whole month, but it may end soon if you share it with someone. For complete healing, order a bundle pack and also enjoy a big discount on your purchase. Do not trust re-sellers or local shops to buy this product, and only choose the company's website to get 100% real antifungal spray. Hurry up and save 50% off on your orders by ordering a six bottle pack from the official website.

Refund Policy

The ProNail Complex customers would be relieved that the company values their reservations and concerns regarding this online shopping experience. It has a 60-day full money-back offer on all orders. Under this offer, the customers can get their money back within two months' time, and there is nothing to lose.

If the results are not there, or you do not find this product convenient, you can return the bottles and get your money back. Do not throw the bottles away if you want to keep this option open for later. Returning the bottles is necessary, or your refund process will be incomplete and discarded.

Contact the company in time. Only those orders that were placed through the official website would be considered for the refund, so trust no other seller. Visit the official website to view the deals and place an order.

ProNail Complex Reviews: Final Words

It seems like this product is already winning the hearts and trust of the users. The ProNail Complex reviews suggest it brings exceptional results, but regularity is the key, or the results can be very slow. It provides anti-fungal support to the nails and skin, creating an environment that does not favor fungus growth. The ingredients are light on the skin and do not trigger any side effects. With scientifically proven ingredients, satisfactory testimonials, and a wide range of benefits, this product is a must-try. [Try ProNail Complex spray if you are looking for a reliable and effective anti-fungal solution at home.](#)

FAQs – Pro Nail Complex Solution Review

Here are some extra details that might help you decide.

What is inside the ProNail Complex?

ProNail Complex is made with herbal ingredients, mainly oils, and extracts from plants. These ingredients work on killing fungus by repairing the cellular machinery and activating the natural defense system.

Is Pro Nail Complex safe for you?

Yes, ProNail Complex is 100% safe for everyone. It is an herbal product and has no side effects or threats attached. People of all ages, professions, and genders can use it. Those on daily medication or battling diseases can also use it since it is not an oral supplement. However, if someone is suffering from an immunity, skin, or circulatory condition, it is better to discuss using this product with a doctor.

What if the Pro Nail Complex fails?

It is very unlikely for the ProNail Complex to fail on users. But the customers have a 100% 60-day money-back offer if they are not happy with the results. Talk to the customer support team to know more about how this refund takes place.

Is there a monthly subscription plan?

All the orders made through the official website are considered a one-time thing. There is no subscription offer for now. If you need a bottle every month, order in bulk and also enjoy a generous discount, valid for a limited time only.

How many bottles to order?

The number of bottles to order depends upon the number of users or the time a person wishes to use this product. Normally, one bottle gets the healing started, but it does not completely reverse the symptoms. You may need three to six bottles for complete recovery. Plus, you can order more later, if you need more help.

Is there any other way to use Pro Nail Complex?

Pro Nail Complex is a topical product, which means you have to apply it to the affected area. You cannot use this product in any other way, i.e., swallowing it or mixing it in food or drink. Stick to the usage instructions to battle fungal toenail infections safely.
