What is the Exodus Effect?

There were several instances when Bible characters used the Holy oil. Biblical evidence shows that God is the creator of the first Herbal Oil. The [Exodus Effect](#) is a religion-based guide written by US-based Pastor Andrew. It incorporates various health strategies designed to restore health.

Pastor Andrew argues that the ancient recipe of the Holy Oil was lost during bible translation. Consequently, some of the ingredients were lost. The oil was so effective that it helped the Israelites to traverse the wilderness without getting tired. Additionally, the ointment can prevent infections and augment overall well-being.

Pastor Andrew states that he discovered the lost ingredient in what he terms the “**Biblical Breakthrough of the Last Century.**” Anyone can create Holy oil with the correct ingredients. The natural

extract uses easy-to-acquire ingredients and is unlikely to give users any nasty side effects.

Why is the Exodus Effect not popular?

Pastor Andrew claims that holy oil can manage various health problems. Therefore, Big Pharma, governments, and other influential systems are against using the healing oil. The religious leader adds that after discovering the holy oil, some “big” people tried to destroy his findings. Pastor Andrew states that the mysterious power is worried that their profits will plummet once people start using the healing oil. What is Inside the Exodus Effect?

Pastor Andrew has compiled several wellness approaches, recipes, and remedies that can enhance health and longevity. All wellness regimens are science-based, safe, and practical. The author claims that thousands of people have benefitted from the program. Effective use can enhance a person’s spiritual, physical, and emotional health.

Below are some of the topics inside the guide:

The Holy Oil Recipe

The holy oil recipe in the Exodus Effect utilizes the original bible-based ingredients. Pastor Andrew cites that a key ingredient was lost for hundreds of years after wrongful Bible translation.

Historical evidence shows that life expectancy across the globe dropped in 333 AD, which was around the time when the Bible was translated. Previously, most individuals enjoyed long and healthy life for 200-300 years. The life expectancy dropped to 35 years. Today, the average human can live up to 80 years. The Holy Oil recipe incorporates “Cannabis” extract that may support healthy aging, immunity, and overall wellness.

Dr. Benet's Discovery

There are numerous claims that some words and meanings got lost during Bible translation. Some words may have different meanings in Greek and Latin. The original scrolls document certain herbs designed to enhance health. However, some Exodus Effect nutrients are “illegal” in most parts of the world.

The Bible and Cannabis

The lost ingredient after mistranslation is cannabis. The original bible manuscript refers to it as **kanabos**. However, after translation,

the scholars changed its meaning to refer to another plant with fewer health benefits.

There are hundreds of studies showing that cannabis or marijuana can augment health. However, most governments prohibit its usage because of misuse. Exodus Effect writer recommends using cannabis to create the original Holy oil. Nonetheless, Christians should use it to benefit their health and not as a recreational drug.

Miraculous Healing Power Of Various Health Problems

Like in the Bible, holy oil can offer various health benefits. The primary ingredient of cannabis may alleviate and eliminate various health problems. Dr. Benet cites that it can fight Alzheimer's, coronary heart diseases, prostate, autoimmune issues, arthritis, cancer, hypertension, and 51 other health problems.

With the correct ingredients, [anyone can make holy oil in the comfort of their home](#). The oil is marketed only for adults and pets.

Can Cannabis Use Shake Your Faith?

Pastor Andrew warns that the revelation in the Exodus Effect can shake the Christian's faith. Most Christian-based faiths warn their users against using marijuana for clinical and recreational purposes. However, Pastor Andrew's discovery about the mistranslated herb “**Goes Against What Christians Believe.**”

The new revelation can put Christians at crossroads between their Old Beliefs and Health Issues.

The Control Issues between Left Wing Elites and US Government

Pastor Andrew reveals that his work and discovery are at risk. He asserts that some influential people in the US government are seeking to remove his discovery from the internet. The US Congress is aware of the discoveries and has even taken a patent on them. The author claims the US government wishes to take control of the new bible-based healing oil.

Scientific proof indicates it has antioxidants that can benefit cellular health and immunity. Additionally, Myrrh can reduce the chances of developing heart problems and diabetes.

Cassia

Cassia is clinically proven to reduce unhealthy triglycerides and lipids. It can improve blood flow by dilating the arteries. In addition, it may improve the glycemic index and increase insulin sensitivity.

Cinnamon

Pastor Benet cites that cinnamon can benefit cellular health. It is a detoxifying nutrient and a powerful antioxidant. Further, the spice can fight oxidative damage and support cell regeneration.

Cinnamon is also a powerful fat burner and metabolic booster. It can raise energy levels, boost brain health, support digestion, and aid in weight management.
