

iGenics Reviews (Based on Consumer Report) By Medical Expert!

Hello my name is Brad, I brought some important information involving the iGenics. If it is really good, if it is worth buying it, I hope you like it. :)

Aging leads to various changes in the body, including vision. Macular degeneration is one of the lead age-related eye problems.

If the eye macula is damaged or affected, it can lead to vision loss since it's crucial for central vision. Distorted or blurry central vision, reduced color perception, and vision loss can adversely affect the quality of life.

[iGenics](#) minimizes the risk of developing age-related macular degeneration, among other eye health issues. According to the creator, the supplement contains twelve potent plant-based ingredients vital in promoting eye health and ensuring consumers have clearer vision despite aging.

What Is iGenics?

iGenics is a plant-based vision support formulation by ScienceGenics. [The all-natural solution enhances better vision with age and restores clear eyesight](#). According to the creator, the iGenics eye support formula has clinically proven premium ingredients, including AREDS-2 elements that have undergone third-party testing to ensure they are safe for consumption and high quality. In addition, the ingredients are tested for potency in preventing eye problems.

How Does iGenics work?

iGenics is filled with premium ingredients that promote improved blood circulation and nourish the eye tissues with essential minerals and nutrients. Turmeric extract, vitamin E, bilberry extract, and

other elements in the formula fight free radicals, and combat oxidative stress, minimizing the risk of developing eye problems like macular degeneration.

Moreover, zinc and copper promote the production of melanin, which prevents the eyes from UV light damage. Other ingredients have anti-inflammatory properties, reducing the risk of developing eye problems caused by inflammation. In addition, turmeric extract has neuroprotective properties, safeguarding the nerves in the eye from damage and preventing macular degeneration. Ginkgo biloba powder and zeaxanthin also enhance visual acuity and contrast sensitivity, which leads to clearer vision.

iGenics Ingredients

According to the creator, the vision support formula is vegan-friendly and contains ingredients that enhance healthier vision. In addition, the manufacturer claims that the capsules are processed in a GMP-certified facility in the US, and all ingredients have undergone third-party testing. The ingredients used in the vision support formula include:

Vitamin A 900mcg

Vitamin A plays a vital role in the functioning of the retina, which is part of the eye that detects light and transmits signals to the brain for visual interpretation. In addition, retinyl palmitate, the active form of vitamin A, provides a pigment responsible for light detection and signal transmission to the brain in low-light conditions. Vitamin A deficiency leads to various eye problems, including dry eyes and night blindness.

Vitamin C 500mg

Calcium ascorbate, a form of vitamin C, is crucial for vision. It contains antioxidants that safeguard eyes from oxidative stress. Vitamin C combats free radicals that easily damage the cells of the retina, preventing macular degeneration, cataract, and other eye problems. In addition, vitamin C supports collagen production, which is ideal for maintaining cornea and other eye tissue health. Moreover, the ingredient improves the absorption of minerals and nutrients, nourishing the eyes and promoting healthy eyesight.

Vitamin E .268mg

Vitamin E contains a fat-soluble antioxidant that protects the eye cells from damage caused by free radicals. By combating free radicals, the ingredient safeguards the retina from damage and prevents consumers from age-related macular degeneration. Vitamin E also reduces inflammation, which causes various eye diseases.

Zinc 20mg

Zinc is an essential mineral that aids in melanin production, preventing the eye from UV light damage. The mineral also maintains macula health and protects it from oxidative stress. Macula is part of the retina that's vital for central vision. As a result, zinc minimizes the risk of developing age-related macular degeneration.

Copper 2mg

The mineral aids in producing collagen, a protein that is the building block for the eye's connective tissues, including the sclera and cornea. Moreover, it promotes the production of melanin, which protects the eye from UV light and maintains the retina's health. In addition, copper has antioxidants that fight oxidative stress and prevent age-related macular degeneration.

[Buy iGenics Before it's SOLD OUT](#)

Bilberry Extract 480mg

The iGenics eye support formula uses the ingredient to improve blood flow into the eye cells. It has anthocyanins, which are antioxidants that promote blood circulation in tiny eye blood vessels and enhance the delivery of oxygen and essential nutrients into the eye tissues. The antioxidants also fight free radicals and prevent age-related vision problems. In addition, Bilberry extract has anti-

inflammatory properties, which lowers the risk of developing dry eye syndrome and other eye problems.

Turmeric Extract 350mg

Turmeric contains curcumin, a compound that has [antioxidant and anti-inflammatory properties](#). As a result, it's vital for combating oxidative stress and reducing inflammation, thus preventing the progression of vision problems. The ingredient also aids in blood circulation, promoting eye tissue nourishment. In addition, turmeric has neuroprotective properties, and it protects the nerves in the eye from damage.

Ginkgo Biloba Powder 80mg

The herbal extract is helpful in vision, especially in individuals with age-related macular degeneration. Ginkgo biloba improves visual acuity and contrast sensitivity. In addition, it improves blood flow to the retina, nourishing eye tissues.

Bioperine (Black Pepper Extract) 20mg

Bioperine is naturally obtained from black pepper and is vital for enhancing the bioavailability of essential minerals, vitamins, and nutrients. As a result, it enhances the absorption of antioxidants and other ingredients, thus promoting overall eye health.

Lutein 20mg

Dark and leafy greens contain lutein, a pigment that accumulates in the eye's macula and provides detailed and sharp vision. In addition, the compound [prevents the eyes from blue light emitted](#) by electronic screens and prevents the development of macular degeneration.

Saffron 20mg

Saffron supports your vision and eye health by improving visual acuity, color vision, and contrast sensitivity. Moreover, it has antioxidant and anti-inflammatory properties, which aid in protecting the macula from damage, minimizing the risk of macular degeneration. In addition, it improves blood flow into the retina and protects the eye nerves from damage.

Zeaxanthin 10mg

Similarly to lutein, the pigment accumulates in the retina, and it's ideal for enhancing central vision. Zeaxanthin has antioxidant and anti-inflammatory properties, which aid in combating oxidative stress and reducing inflammation. Moreover, it improves vision in aged individuals with macular degeneration and enhances visual acuity, glare recovery, and contrast sensitivity.

Supplement Facts		
Serving Size: 2 Capsules Servings Per Container: 30		
Amount Per Serving		%DV
Vitamin A (as retinyl palimate)	900 mcg	100%
Vitamin C (calcium ascorbate)	500 mg	556%
Vitamin E (as d-alpha tocopheryl acetate)	0.268 mg	2%
Zinc (as copper bisglycinate chelate) (TRAACS™)	20 mg	182%
Copper (as copper bisglycinate chelate) (TRAACS™)	2 mg	222%
Bilberry Extract (fruit)	480 mg	**
Turmeric Extract 95% (root)	350 mg	**
Ginkgo Biloba Powder (leaf)	80 mg	**
Black Pepper Extract (fruit)	20 mg	**
Lutein (from marigold flower)	20 mg	**
Saffron (flower)	20 mg	**
Zeaxanthin (from marigold flower)	10 mg	**
**Daily Value not established.		

Other Ingredients: Hypromellose (vegetable capsule)

iGenics Use and Benefits

According to the creator, customers should take two iGenics capsules daily to promote clearer vision. Here's the significant role of the iGenics formula:

Promotes Better Vision with AREDS-2 Formula: The formula has potent and proven ingredients that reduce the risk of age-related macular degeneration progression and maintain eye health.

Supports Healthy Inflammatory Responses: Some ingredients in iGenics have anti-inflammatory properties, lowering the risk of eye problems associated with inflammation.

Nourishes the Eye: iGenics promote blood circulation, ensuring the eye tissues are nourished with essential vitamins and nutrients.

No Fillers and All-Natural: According to the creator, the eye support formula iGenics is vegan-friendly since it has plant ingredients. It promotes eye health naturally and prevents consumers from having eye problems.

iGenics Pricing

[The iGenics vision support formula can be ordered on the official website.](#) Each bottle of iGenics holds 60 capsules and is available at the following pricing:

Sampler Package: One bottle of iGenics Vision Support dietary support supplement for a monthly serving is available at \$59.00 + \$6.99 shipping fee.

Best Value Pack: Six bottles are selling at \$39.00 per bottle + free shipping.

Most Popular Pack: Three bottles of iGenics are available at \$49.00 each + \$8.99 shipping fee.

Refund Policy

A 180-day money-back guarantee backs all purchases of the iGenics formula, and consumers who find the supplement unsatisfactory can claim a full refund. However, the shipping and handling fee is exempted from the refund. Customers can reach out for questions on the formula or for ClickBank order support at:

Product Support: support@sciencegenics.com

Order Support: <https://clkbank.com/>

Product Return Address: ScienceGenetics Shipping 285 Northeast Ave
Tallmadge, Ohio 44278

Conclusion

iGenics vision support supplement can aid in lowering the risk of developing eye problems, including age-related macular degeneration. According to the creator, it has 12 carefully selected ingredients clinically tested for potency. [Consumers can order iGenics on the official website and benefit from limited-time offers.](#)
